EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Heany on 27 April 2005.

The application has been amended as follows: In the claims, claim 16 has been deleted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Examiner notes that claims 1 and 11, which maintain the main limitations of these claims and are the only remaining independent claims of this case, are directed toward the generation of a 3-D effect comprising the provision of at least two image layers of chiral LC material wherein one of the layers reflects right-handed circularly polarized light and the other reflects left-handed circularly polarized light further comprising satisfaction of either A, B, or C.

Examiner notes that with regard to Faris '044, Applicants argue the reference does not teach A or C, however Faris '044 does not teach the first and second layers not being directly superimposed and not forming a stereo pair of images. Thus, Applicants' argument with regard to Faris '044 that, "The CLC layer (of Faris '044) is made from a layer of right-handed circularly polarizing material (RHCP) film material, and the second CLC layer is made from a

layer of left-handed circularly polarizing material (LHCP) film material.” (Arguments, page 12) is understood to be correct.

Furthermore, Examiner noted that while the other references teach superimposition of the layers (thereby requiring that applicants (A) be satisfied) are not polymerized at a temperature below 60oC while the material is in its’ liquid crystalline state. Therefore, the combination of these elements is allowed.

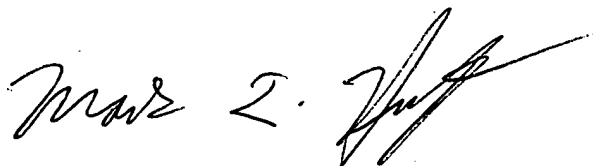

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jennifer R. Sadula whose telephone number is 571.272.1391. The examiner can normally be reached on Monday through Friday, 10am-6pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner’s supervisor, Mark F. Huff can be reached on 571.272.1385. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
